

MEET DR RAVI BANGIA

MBBS, MD Anaesthesia, FANZCA, PG Certificate in Clinical Ultrasound,
Graduate Diploma in Clinical Research Methods, EDIC

Dr Ravi Bangia is an overseas trained specialist, graduated and post graduated (MD Anaesthesiology) from Maharshi Dayanand University in India.

He has done his anaesthetic and intensive care medicine training from Austin Health and is a fellow of Australian New Zealand College of Anaesthetics since 2010. He holds a European Diploma in Intensive Care Medicine (EDIC) from the European Society of Intensive Care Medicine and which he obtained in 2015. EDIC is an organisation seeking to standardise education and training of intensive care in Europe and in other countries, and many jurisdictions specify this qualification in intensive care medicine.

Dr Ravi Bangia is a practising ICU consultant at Austin Health and a registered anaesthetic consultant at various leading private and public hospitals in Melbourne.

Dr Ravi is dedicated to client care and is continually updating and expanding his skills and knowledge with further education. Dr Ravi has been proactive in writing the vision for Mobile Anesthetics services to match and surpass Australian standards, using his extensive knowledge of clinical studies and design.

Far from taking his skills for granted, Dr Ravi views being an anesthesiologist as a great honour as it provides him with the opportunity to be the advocate for his clients when they are having surgery. Being an anesthesiologist is a big responsibility, as he must ensure individuals under his care receive a pleasant, pain-free experience at a stressful time when they are having surgery. Dr Ravi provides an exceptional level of care for his clients and is always seeking to ensure they receive the best possible treatment to improve their outcome. He always aims to make a positive difference to individual's lives. Dr Ravi's kind and gentle approach and expertise relieve clients of underlying fears and anxiety around given procedures. His polite and gentle bedside mannerisms make him popular with colleagues and clients. Dr Ravi's eye for detail is the reason for safe anaesthetic practice.
